

LARGE CAPACITY LAUNDRY CART #200CFC

Our wire laundry carts have been the standard of the industry for over 70 years. They are used in the majority of America's coin laundries as well as on-premise and commercial laundries. They are used internationally in over 20 countries and are built for years of trouble free service.

- Larger capacity than our standard cart, allows for bigger loads
- Bases are built with fully welded 7/8" heavy steel tubing and are guaranteed for life against breakage
- Features our patented 5" Clean Wheel System™ casters with non-marking polyurethane tires. They reduce debris pick up in hubs. The ball bearing design gives years of service
- New bearing raceway guards shield top caster bearings from dirt and chemicals
- New larger, softer non-marking bumpers help protect equipment and walls from damage
- Chrome plating is sturdy, bright and commercial quality, saving maintenance
- Optional "dishwasher grade" vinyl basket coating encapsulates the entire basket
- Colored bases and racks are powder coated in a durable duraguard finish coating
